I-VET SCOPE

- A Perfect scientific insemination of Semen deposition in cervix of large and small animals is carried out with the help of Mobile Phone Video Monitor
- The higher conception rate can be achieved, which can be around ca. 70%.
- This also helps in oral diagnosis of respiratory diseases and swab collections.

Digital ivetscope Patent # 281636 Patent # 289770

THAWING MONITOR

Digital Frozen Semen Thawing System (DFSTS)

- DFSTS developed for the first time in the world
- Perfect Thawing Temperature (37° C) of Semen
- 4 hrs Battery Backup
- Homogeneous distribution of sperms

Digital Thawing Systems to Insemination Procedure
AI-Kit

- A complete package for Artificial Insemination
  Including: DFSTS, Insemination iVetscope,
  AI Gun, Mobile receiver, Insemination pipettes,
  AI Plastic sheath, and Straw cutter.
